# Netherlands MOBILITY

25-29 September 2023  
where were we?

## GLOBAL EDUCATION CENTER

Our project in partnership with Italy, Turkey, Latvia and the Netherlands received training at the Amsterdam GEC this week. Having learned a lot of information about digital citizenship, the partners also practiced working on the padlet. The course center has provided all partners with a lot of videos and educational content that they can use from the padlet. Now the next step is to adapt this educational content to our schools. We will adapt digital citizenship for students and families to our schools. Task sharing is OK. follow us our student and family modules will meet you very soon.
