

first meeting

LATVIA MOBILITY

17-19 May 2023 where were we?

PAMATSKOLA "RIDZE"

The details of our project were discussed at the coordinator school. Partner institutions made their presentations. Having the opportunity to get to know each other for the first time, the partners decided on how to run the digital citizenship project. The work schedule has been prepared. Dissemination tools were determined. We are very happy to work together on this project as we are an excellent team.
